

ПУБЛИКАЦИИ

1. Energy characteristics of laser-oxygen cutting of steel by CO₂-laser radiation /Malikov, A. G.; Orishich, A. M.; Shulyat'ev, V. B. // Quantum electronics, 2012, V. 42, № 7, P. 640- 644.
2. Energy conditions of gas laser cutting of thick steel sheets / Fomin V.M., Malikov A.G., Orishich A.M., Shulyat'ev V.B. // Journal of Applied Mechanics and Technical Physics, 2011, V. 52. № 3. С. 340-346.
3. Similarity of heat fluxes upon laser oxygen cutting of steel / Fomin, V. M.; Malikov, A. G.; Orishich, A. M.; Shulyatyev, V.B. // Dokladyphysics, 2011, V. 56 № 1, P. 12-15.
4. High-power repetitively pulsed CO₂ laser with mechanical Q-switching and its applications to studies in aerodynamic installations / Malov A.N., Orishich A.M., Shulyat'ev V.B. Quantum Electronics, 2011, V. 41, № 11, P. 1027-1032.
5. On similarity laws for gas-laser cutting of thick steel sheets / Fomin V.M., Malikov A.G., Orishich A.M., Shulyat'ev V.B. Doklady Physics, 2009. V. 54, № 9. P. 413-417.
6. Experimental optimization of the gas-assisted laser cutting of thick steel sheets / Malikov A.G., Orishich.A.M. A.M., Shulyat'ev V.B. // Quantum Electronics, 2009. V. 39, № 6, P. 547-551.
7. Metal cutting by radiation from a CO₂ laser with a self-filtering cavity / Malikov A.G., Orishich A.M., Shulyatyev V.B. // Quantum Electronics, 2009, V. 39, № 2, P. 191-196.
8. Scaling laws for the laser-oxygen cutting of thick-sheet mild steel / Malikov A.G., Orishich A.M., Shulyatyev V.B. // International Journal of Machine Tools and Manufacture, 2009, V. 49, № 14, P. 1152-1154.
9. A V Zaitsev, O B Kovalev, A G Malikov, A M Orishich, V B Shulyat'ev, "Laser cutting of thick steel sheets using supersonic oxygen jets", *QUANTUM ELECTRON*, 2007, 37 (9), 891–892.
